

MAZDA ORIGINAL BRAKE FLUID

FMVSS 116 DOT 4
ISO 4925 CLASS 4

SPECIFICATIONS

This oil has been developed for and approved by Mazda Motor Corporation and meets the requirements of FMVSS 116 DOT 4.

DESCRIPTION

Mazda Original Brake Fluid is an original brake fluid formulated and approved to meet the specific requirements of Mazda vehicles.

APPLICATION

Mazda Original Brake Fluid is recommended for brake systems in Mazda vehicles.

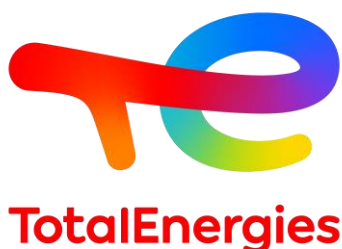

CHARACTERISTICS

TEST*	UNIT	TEST METHOD	RESULT
Viscosity at -40°C	mm ² /s	ASTM D445	1205
Viscosity at 100°C	mm ² /s	ASTM D445	2.4
Dry Boiling Point ERBP	°C	ISO 4925	267
Wet Boiling Point WERBP	°C	ISO 4925	182
Volumetric mass at 20°C	kg/dm ³	ASTM D4052	1.075

* The characteristics given above are obtained with a standard tolerance threshold during production and may not be considered specifications.

CONSUMER BENEFITS

- Designed to work specifically with Mazda vehicles — provides protection against corrosion for metals used in Mazda brake systems and is compatible with rubber seals and hoses.
- Excellent high temperature performance — very high dry and wet boiling points designed for the high temperatures in brake systems and allows preventions of vapor lock.
- Suitable for a wide range of climates, with viscosity suitable at cold as well as high temperatures.
- Resistance to moisture absorption.
