# MAZDA ORIGINAL OIL ULTRA 5W-30

ACEA A5/B5

API SL/CF

## DESCRIPTION

Mazda Original Oil Ultra 5W-30 is a tailor-made technology for Mazda vehicles and drivers to ensure best-in-class performance, providing the highest standards of engine protection and drain interval.

- Recommended for many petrol and diesel engines including MPS and Renesis engines.
- Designed for all types of service (urban, highway and motorway driving) particularly in the most extreme conditions.
- Latest technology suitable for all petrol and diesel engines.
- Suitable for all driving styles.

## APPLICATION

Mazda Original Oil Ultra 5W-30 is recommended for Mazda vehicles globally. It is suitable for all Gasoline & Diesel engines compatible with the 5W-30 viscosity grade.

## CHARACTERISTICS

TEST	UNIT	TEST METHOD	RESULT
Kinematic Viscosity at 40°C	mm <sup>2</sup> /s	ASTM D445	62.6
Kinematic Viscosity at 100°C	mm <sup>2</sup> /s	ASTM D445	10.4
Viscosity Index	-	ASTM D2270	155
Flash Point	°C	ISO 2592	230
Pour Point	°C	ISO 3016	- 39
Density	kg/m <sup>3</sup>	ISO 12185	0.852

## CONSUMER BENEFITS

- Significantly reduce fuel consumption as well as CO<sub>2</sub> emissions.
- Reduced pollutant emissions. Particle emissions are reduced by 10% on the average in urban usage.
- Outstanding engine protection, especially against wear.
- Higher oxidation stability and the deposit control.
